

Customer Details

Client is UK based well reputed Bank located in Dubai.

Business Problem

Client wanted to develop a Smart Card based application software for banking transactions. So client has outsourced the complete hiring process to us.

Challenges:

1. Resources who have prior experience in developing smart card applications.
2. The demand for resources was on temporary basis.

Our Solution

We offered complete Staff Augmentation Solution to the client by providing the relevant experienced resources to them. We have deputed the entire team that includes professionals from Team member level to Project Manager level at their premises. We have signed the Contract to hire agreement with the client for this requirement. The duration of the contract was for 6 months. Our recruiters have done extensive search and found the best profiles for the client's urgent requirements within a stipulated time.

Customer Benefits

Client spent Low Cost on resources, saved lot of Time, and had no Recruitment Hassles.
